

BAADER Clickstop Digital Camera Adapter (MicroStage II)

- Rigid, all metal construction
- Holds and centers all Digital Cameras with standard lens
- Folding design, requires almost no storage space in your accessory case
- Lightweight but extremely strong (290 gram)
- Holds cameras up to 1 kg of weight
- Fits all eyepieces from 29 to 63 mm in diameter
- Measurement: 175x120x26 mm (7x5x1") in folded position
- Soft leather bag included – for scratch free storage together with your valuable optical equipment
- Clickstop 3D-camera support arm, perfect for all spotting scopes, for birders and marksmen alike

The Baader Microstage II enables camera adaption onto almost any telescope, spotting scope and many binoculars.

The Camera Support Arm moves to the side for visual aiming (with Clickstop action!). Camera remains completely adjusted and ready for shooting the image when the support arm is ,clicked' back into working position.

Microstage II folded flat and in Softleather Pouch
